EXPERINCE

-working freelance (2021- now)

-JavaScript Project (e-commerce)

- Built an interactive web application using JavaScript, HTML, and CSS. The project demonstrates dynamic UI elements, event handling, and DOM manipulation. [Project](#)

-Template 1 (HTML & CSS) (Photo Webside)

- Designed and developed a fully responsive website template using HTML, CSS, and Bootstrap. The template follows modern design principles and can be adapted for various website types. [Project](#)

-Test 2 Project (LoginPage)

- Created a structured web page with clean UI/UX principles, focusing on layout, typography, and responsive design techniques. The project showcases advanced CSS styling and grid/flexbox usage. [Project](#)

-Test 3 Project (Clash of Clans page)

- Developed a functional web interface incorporating JavaScript interactivity, animations, and a smooth user experience. The project highlights front-end development skills with a focus on user engagement. [Project](#)

- **Mastermind Game (Java)** - Developed a console-based Mastermind game using Java, applying Object-Oriented Programming (OOP) principles. The game includes random code generation, user input validation, and feedback on guesses
